

Our Erasmus trip to Spain

It was from the 17th to the 26th of March 2017. We were 8 students from Martinique, Mrs Angeon and Mrs Tondellier were with us. We took the plane at Aimé Césaire airport on March 17th . We arrived in SARAGOZA in Spain only on March 19th where our host families had been waiting for us for a very long time because of the terrorist attack at Orly airport.

During this trip we met other students and teachers from several countries :

GERMANY, ITALY, LITHUANIA, NORWAY, ROMANIA, U.K. AND SPAIN OF COURSE.....

We had some activities :

We presented our work « Green Jobs for our planet Earth ». We showed them our powerpoint presentation about our island, our middle school and ecotourism in Martinique.

We explained to them how Léon Tisgra, the first organic farmer who initiated an agritourism program on the island, works.

We visited companies like the recycling centre, we learnt more about green jobs and how businesses do in order to preserve the environment and not pollute our planet.

We saw the most important places in Saragoza. We visited museums, monuments like Aljaferia Palace, which brought us some knowledge about Spain.

Of course we had fun too: we visited an aquarium and we went to an amusement park. All these activities were interesting and entertaining. I love Spain!

The climate in Zaragoza is fairly fresh. The weather was cloudy, temperatures were cold.

This experience has been very rewarding for me, it was the first time I traveled without my parents. I met students from other parts of the world, it was very pleasant to speak with them and spend time with my host family. My family was very caring and kind with me. Angela and her parents made me taste typical dishes like tapas, Treza de Huesca, it was very delicious. They were sorry because I left Spain without eating paella. I told us I would come and eat paella with them during my next holidays in Spain.
