# Quelques observations

- Logiciel en Anglais sans possibilité de changer de langue
- Pas d'annotations, d'observations sur les productions
- Application assez intuitive
- Favorise le travail collaboratif
- Amélioration / personnalisation de l'existant
- De nombreuses plateformes de téléchargement
- Permet à l'élève de travailler de manière autonome et créative : création de nouveaux supports de travail à partir d'une vidéo (QCM , commentaires...)
- Peut être utilisée également à partir de vidéos personnelles : bon outil pour créer ses propres reportages par exemple...

A thick black L-shaped frame surrounds the text. The top-left corner is a horizontal bar extending to the right, and the bottom-right corner is a vertical bar extending upwards. The text is centered within the open space of the frame.
