**Les cactus ciérges**

# THE DIAMOND ROCK

- The Diamond Rock is a little Island that is 175meters high and 300 meters wide .
- It is situated in the Caribbean sea southwest of Martinique at two kilometers of the final point of Diamond city.
- It owes its name to its sharp angles shape, evoking that of the precious stone.

# O ROCHEDO DO DIAMANTE

O rochedo do Diamante é uma ilha pequena de 175 metros de altura e de 300 metros de diâmetro. Ele situa-se no sudoeste da Martinica a dois quilômetros da ponta do diamante.

O nome vem da forma afiada chanfrada e dos refletos das paredes a certas horas, evocando os de uma pedra preciosa
