"I think that this trip was very interesting. The students could immerse in the Barbadian culture and improve their English at the same time. They never asked me for help. I must admit that that did their best to speak English all the time"

"It was a great experience because I love travelling. I love Barbados because it's Rihanna's country. I really improved my English and I lived new adventures."

MARTOT Caroline " I think that this trip was exceptional. Moreover, my host family was very nice . I felt at home there."
